MURRAY ARRESTED AND TRIED FOR DEATH WAGES RAISED BY SUGAR PLANTERS

MANSLAUGHTER IS CHARGE; MURRAY ARRESTED; TRIED

"Resign nothing! I'll resign when I go to jail. Why should I resign?"—Supervisor Murray.

Charged with responsibility for the death of Timoteo Hernandez, the Porto Rican, as a result of a New Year's Eve auto party, Supervisor Harry E. Murray was arrested at 9:20 o'clock this morning on a warrant sworn to by Sheriff William P. Jarrett.

Captain Harry Lake of the county attorney's office, armed with the warrant, placed Supervisor Murray under arrest as he met him at the corner of Bethel and King streets. Murray made no resistance whatever, walking quietly down to the police station.

A few moments afterward the supervisor upon whom a coroner's jury fixed responsibility for the Porto Rican's death was in police court, and the matter went to trial immediately. Attorney E. C. Peters, representing Murray, entered the courtroom with the supervisor and announced himself ready to proceed with the trial. Attorney General Lindsay and Court Reporter Horner were present and within a few moments, news of the arrest going like wildfire, Mayor Fern, Supervisors Low and Amama and several other prominent men came in and helped to fill the courtroom.

Trial Is Speedy.

Murray was formally charged with

CHARGE LAID AGAINST SUPERVISOR MURRAY

"That one Harry E. Murray did at Honolulu, City and County of Honolulu, T. H., on the first day of January, A. D. 1912, feloniously and wilfully without malice aforethought and without authority, justification or extenuation of law, kill one Timoteo Hernandez, and did then and there and thereby commit the crime of manslaughter contrary to the form of the statute in such case made and provided."

The first witness called was Angel Garcia, a relative of the dead man, who had testified at the coroner's inquest. Garcia repeated his previous testimony, concerning his finding of Hernandez lying in the street, and stated that the Porto Rican was not well, being paralyzed on one side and his eyesight impaired. In response to a

man'slaughter, and Attorney Peters consented to the wording of the complaint and asked that the court proceed immediately with the trial. The prosecution was represented by County Attorney Cathcart.

TERRITORIAL GRAND JURY REPORT TOMORROW

The Territorial Grand Jury, which was expected to make its report before Judge Cooper this afternoon in the Circuit Court, did not do so.

The report is to be made at 10 o'clock tomorrow morning instead.

Pension Commissioner Davenport explained the estimates of \$152,687,699 for the pension system for this year.

It has been decided by the Hawaiian Sugar Planters' Association to increase the pay of all ordinary day laborers on an \$18 per month basis to \$20 per month, to go into effect the first of January, 1912. This will take the place of the bonus system of last year.

It has also been decided to put into effect a sliding scale bonus system, which is to be based on the average price of duty paid raw sugar in New York for the year.

The purpose of the system is to give the day laborers additional compensation during years when high prices of sugar prevail, and is arranged on a sliding scale beginning with an average price of 3.55 cents per pound—\$71 per ton—as follows:

If the market price of raw sugar in New York for the year averages 3.55 cents per pound—\$71 per ton—laborers will receive a bonus of 1 per cent of their year's earnings, and for every additional dollar per ton increase in the price of sugar, one per cent will be added to the bonus, so that if sugar should average four cents for the year, laborers will receive 10 per cent of their yearly earnings, and so on up to \$90 per ton, when the bonus will be 20 per cent.

This sliding scale bonus will apply only to laborers receiving \$24 per month and under, and they must work an average of 20 days per month for 12 months in order to be entitled thereto.

The foregoing statement issued to wages for the plantation day laborer throughout Hawaii of over 10 per cent and a participation in the increased returns on sugar governed by the market price.

This means an additional amount paid out in wages of many thousands and millions of dollars, and is more far-reaching than appears on first sight, as all the contracts that are made with the hula on the plantations are made on the basis of the day wage. So the increase will be felt all along the line.

MEN OF U.S.S WEST VIRGINIA DARE VOLCANO

One of the most remarkable photographs of the present activity of Kilauea was that here reproduced and taken by one of the crew of the cruiser West Virginia when the men from that ship were at the crater. The photograph shows the men practically in the midst of the boiling lava and gives the people of Hawaii who know the moods of the crater a perfect idea of how near to the top and accessible is the lava at present. The light part at the top of the photograph is the hot boiling lava, and the men bending over are dipping sticks through the cracks in the lava to secure souvenirs. While these men were down in the pit they were shouted at and ordered to return as the officers felt that they were risking their lives and a terrible horror might occur at any moment. But the boys liked the danger. They held their hands to their ears and pretended not to hear the warning shouts. Their shoes were burned and some suffered scorched feet. But they had lots of fun and a nearer acquaintance with the volcanic fires than anyone else has had for many years.
